Current Commodities	Coal (thermal & steelmaking), Pet Coke, LPG (sub-leased operation)

We are.... the closest bulk terminal to key Asian markets... nearby yet at a distance from communities and neighbours... directly connected to commodity-producing regions.

Trigon's Indigenous Engagement

We are grateful to operate our terminal and build our future in shared ownership with the Metlakatla and Lax Kw'alaams Peoples within the Tsimshian unceded, ancestral and traditional territories.

We recognize the opportunity our partnership and use of Tsimshian territories provides for the success of our employees, families, community and nations.

Engagement Principles:

1. Engage early
2. Full transparency on benefits & risks
3. Ensure project design & ongoing operations reflect feedback

Early Read of Indigenous Priorities/Considerations:

- Lightest carbon footprint possible
- Address actual & perceived risks
- Advance economic self-sufficiency
